

Welcome to Sonnet Montessori – a fun and dynamic learning environment for your child!

Did you know?

- » *A Montessori based preschool is no more costly than general child care?*
- » *A child as young as three years can begin to learn the basics of math and reading skills?*

Your child will partake in first rate education and preschool activities, such as:

- **Sensorial**
Children learn best through their senses. They will begin to learn by exploring the many shapes, textures, tastes and sounds.
- **Practical Life**
We encourage children to work at controlling and mastering movements. Beginning with large motor skills and working toward fine motor abilities.
- **Math**
Children naturally have an interest in all aspects of mathematic: weight, order, systems, series, time. We can serve the interest of the mathematical mind by feeding this interest with sensorial experiences.
- **Language**
Successful development of spoken and written language begins at home. We will augment this learning with the exploration of concepts, word play, and reading aloud that makes the challenge of language fun and engaging.

OUR MISSION

We are dedicated to providing an outstanding learning environment for children between the ages of 33 months and 6 years. Our school follows the child-centered Montessori system of education and our goal is that each child fulfills his or her social and academic potential in a caring, safe, diverse and challenging environment.

“The secret of good teaching is to regard the child's intelligence as a fertile field in which seeds may be sown, to grow under the heat of flaming imagination.”

Dr. Maria Montessori
